⚠ Safety Warning

- This golf hitting net is designed and tested ONLY for use with the included soft practice balls.
- Do NOT use real golf balls or any other hard projectiles. Impact from real golf balls may cause the fiberglass poles to crack, splinter, or fail, which may result in damage to the product and serious personal injury.
- Before each use, inspect the fiberglass poles for any signs of cracking, splitting, splintering, or other damage.
- Do not use the product if any damage is found.
- If a fiberglass pole becomes damaged, discontinue use immediately and avoid direct contact with exposed fiberglass.

Setup Instructions

1. Connect the Frame:

Connect the two fiberglass poles by aligning them horizontally; they will click and lock securely into a single long pole.

① ②

2. Assemble the Net:

Lay the net flat and feed the connected pole through the designated sleeve until it emerges on the other end, allowing the poles to flex naturally into a supportive X-shape. Once installed, secure the top of the poles with a knot.

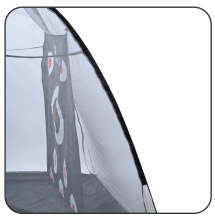

③ ④

3. Secure the Base:

Attach the metal peg (on the net's iron ring) to one end of the pole frame. Applying gentle pressure to fit it into place is normal and creates a stable, self-supporting structure.

⑤ ⑥

4. Attach the Target:

Unfold the target cloth and secure its four toggles to the structure. If feels loose, tighten the toggle and tie an external knot to shorten the cord.

⑦ ⑧ ⑨

Congratulations! Your net is now ready for practice. The entire setup typically takes under 10 minutes.
